

Premelter VSB 40

Fig. Premelter VSB 40

Made in Germany

Subject to modifications

The premelting tank renders the Reka gluing systems even more economical.

The Reka premelting tank gives you the opportunity of premelting the glues. The liquid glue can then be loaded into the gun and immediately dispensed. The work does not have to be interrupted for a longer

time. Once premelted, even pressure-sensitive glues in block form that could not be handled by the gun can be dispensed without problems.

Technical Data

	<i>Premelter VSB 40</i>	
<i>Article Number</i>	<i>5563 (230 V)</i>	<i>5567 (120 V)</i>
<i>Power Supply</i>	<i>230 V / 50 Hz</i>	<i>120 V / 60 Hz</i>
<i>Power Consumption</i>	<i>800 W</i>	
<i>Current Consumption</i>	<i>3,5 A</i>	<i>6,7 A</i>
<i>Temperature control</i>	<i>Thermostat</i>	
<i>Operating temperature</i>	<i>50 - 150 °C</i>	
<i>Temperature limitation</i>	<i>Temperaturwächter</i>	
<i>Max. melting temperature</i>	<i>approx. 150 °C</i>	
<i>Gross Tank Capacity</i>	<i>approx. 4 l</i>	
<i>Weight</i>	<i>11 kg</i>	
<i>Conveying system</i>	<i>Piston pump</i>
